ALCOHOL SPRAY 70%

SANITIZING AID

MATERIAL & FUNCTION

ALCOHOL SPRAY 70% contains 70% isopropanol and is suitable for industrial cleansing where minimal water and low odour is desired. **ALCOHOL SPRAY 70%** does not require An Australian Taxation Office permit for purchase. **ALCOHOL SPRAY 70%** is ideal for spot cleaning in printing, foundry, chemical formulators etc. The water component in the spray reduces the “flashing off” of isopropanol so that the contact time (and sanitizing time) is increased.

APPLICATIONS

ALCOHOL SPRAY 70% is readily available and inexpensive. It is often a suitable alternative to methylated spirits. The risks associated with human contact with **ALCOHOL SPRAY 70%** are minimal.

It is a clear colourless liquid miscible in water.

ALCOHOL SPRAY 70% is for use in industrial cleaning of benches and hard surfaces and is useful as a mild sanitizer.

DIRECTION FOR USE

Use neat. Spray onto surface to leave a thin film and allow to air dry. Do not spray directly on to foodstuffs.

CAUTION

Avoid contact with eyes and avoid breathing vapour or spray mist.

PACKAGING

15 Litre containers

IMPORTANT NOTICE TO CUSTOMER
