ALL KLEN

MATERIAL & FUNCTION

ALL KLEN is a powdered high foaming general purpose detergent for all hand washing of equipment within the food processing industry and will remove fat and protein residues from stainless steel benches, equipment and utensils. Also safe to use on aluminium, galvanized iron and tin plate.

ALL KLEN is suitable for use in food and meat export establishments.

APPEARANCE

Free flowing green powder

APPLICATION

ALL KLEN is recommended to be diluted between 5 to 20 grams per litre of water, depending on the degree of contamination to be removed. It is suitable for hand scrubbing, high pressure cleaning or foam cleaning (when boosted with foaming agent). Hot water is preferable for cleaning

ALL KLEN is suitable for use in water with a hardness up to and exceeding 800 mg/L

ALL KLEN is a particularly safe product to use, however continued contact with the skin should be avoided. In high concentrations and in continued use, gloves should be worn. Avoid contact with eyes.

ALL KLEN will store indefinitely in original containers. After opening, re-seal the lid securely in place to avoid moisture entry, as caking may result.

PACKAGING

4, 15, 18 and 200 kg containers.

IMPORTANT NOTICE TO CUSTOMER
