ATLAS

SCALDER ADDITIVE and CIP LIQUID DETERGENT - ALUMINIUM SAFE -

MATERIAL & FUNCTION

ATLAS is a metasilicate-based liquid low foaming, alkaline, biodegradable detergent. Atlas does not contain caustic potash or caustic soda and is specifically formulated for clean-in-place equipment where soft metals (particularly aluminium) are exposed.

ATLAS is formulated to handle water hardness levels exceeding 800mg/L. It will quickly and effectively dissolve and emulsify soils, remove fats and protein from all surfaces, thus reducing the potential of bacterial growth. ATLAS contains sequestering agents to control scale formation from hard water supply.

APPLICATION

SCALDER ADDITIVE: Dilute ATLAS at a rate of 1 to 2 mL per litre of water for soaking and scalding baths. Additional amounts may be added during processing to maintain a pH of approximately 10.

CIP CLEANING: Dilute ATLAS at the rate of 5 to 30 mL per litre in water with a temperature of 85°C in the cleaning system.

CAUTION

This product is alkaline. Avoid contact with skin and eyes.

PACKAGING

15 Litre & 200 Litre containers.

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
