BIOHIB RW

HALOGENATED BIOCIDES

POISON
KEEP OUT OF REACH OF CHILDREN
READ SAFETY DIRECTIONS BEFORE OPENING OR USING

BIOHIB RW
Contains 62% TOTAL AVAILABLE HALOGEN AS CHLORINE
UN 3085 OXIDIZING SOLID, CORROSIVE, N.O.S. (BROMOCHLORODIMETHYLHYDANTOINS)
CLASS 5.1 SUBRISK 8 HAZCHEM 1W PG II

Xn harmful, C Corrosive, Xi Irritant. R20/22 Harmful by inhalation and in contact with skin. R41 Risk of serious damage to eyes. R43 May cause sensitisation by skin contact.

FIRST AID: For advice, contact a Poisons Information Centre (Phone Australia 131 126) or a doctor (at once). If swallowed, do NOT induce vomiting. If in eyes, hold eyelids apart and flush the eye continuously with running water. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

SAFETY DIRECTIONS: Highly reactive oxidising chlorine compound. May cause fire or explosion. May produce severe burns. Product will irritate the eyes, nose, throat and skin. Avoid contact with skin and eyes. Avoid contact with clothing. Avoid breathing dust. Do not allow product to come into contact with other chemicals, especially acids. Do not allow product to come into contact with combustible materials such as paper, fabric, sawdust or kerosene. Do not allow to get damp. Use clean containers for dispensing. Do not mix with other chemicals. Do not mix with different types of chlorinating chemicals. Mix with water only. Do not add water to product – add product to water, but in case of fire drench with water. Store under cover in a dry, clean, cool, well ventilated place away from sunlight. Store and transport in an upright container. In case of spillage flush with large quantities of water.

EMERGENCY INFORMATION: Spills: Eliminate ignition sources. Wear full protective suit. Prevent entry into waterways. Absorb onto earth, vermiculite or other absorbant material. Transfer into clean labelled drums for disposal.
Fire: Use water fog or fine spray. Additional information is listed in the Material Safety Data Sheet.

MATERIAL & FUNCTION

BIOHIB RW is a broad-spectrum micro-biocide used for the control of bacteria, fungi and algae in industrial water systems.

Appearance: Off-white pellet

Material: Halogenated dialkylhydantoin

APPLICATIONS

BIOHIB RW is an anti-microbial product that releases bromine and chlorine. It is effective in controlling gram-positive and gram-negative bacteria, moulds, yeasts and algae in both acid and alkaline conditions

DIRECTION FOR USE

The recommended dosage for BIOHIB RW is a residual of 0.1 – 0.5 ppm halogen in the water system.

The MGCC service representative will determine the required and usage for each specific system.

CAUTION

Refer to the Material Safety Data Sheet for detailed safety and handling instructions. *Avoid contact with skin and eyes and avoid breathing vapour or spray mists containing this material.*

PACKAGING

22.6kg drum

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
