BUTTA SLIP

MATERIAL & FUNCTION

BUTTA SLIP is a powdered lubricating detergent based on food grade inorganic sequestering agent. The inorganic sequestering agents have been carefully chosen to inhibit corrosion and give maximum water softening effect.

APPLICATION

BUTTA SLIP is designed for use as a lubricant in butter factories. Fresh solutions are to be made up as required by operators. Solutions are not to be left standing overnight. In the event this happens discard the old solution and re-mix a fresh batch.

- 1. Delivery piping and slides:** The surfaces to be lubricated are cleaned and washed with a BUTTA SLIP solution at the rate of 60 g per 5 litres of water at 60° - 65°C.
- 2. Benches:** Clean off the butter “smear” with a vat brush dipped in a freshly made BUTTA SLIP solution (60 g per 5 litres of water at 60° - 65°C).

PACKAGING

15kg pail and 180 kg open head drums

IMPORTANT NOTICE TO CUSTOMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user.
ALWAYS TEST FIRST.
