CW6265

Cooling Water Antiscalant

Product Description

ENVIRONEX CW6265 Cooling Water Antiscalant is based on revolutionary TERPOLYMER science combined with world-class dispersants in one formulation.

Product Benefits.

- Superior scale inhibition
- Excellent calcium tolerance
- Thermally stable,
- Effective calcium carbonate dispersant
- Enhanced calcium sulfate control
- Inhibits the precipitation of calcium phosphate and calcium phosphonate
- Stabilizes the reaction products of iron and calcium.
- All organic.
- pH Stable
- Contains no heavy metals
- Prevents under deposit corrosion

Application

CW6265 can be used in all open recirculation cooling water systems.

Features

- CW6265 is compatible with Oxidizing and Non-oxidizing Biocides
- Ready to use liquid

Dosage requirements

- Dosage will vary from 2-100 ppm CW6265 depending on feed water quality.
- Combine with a good microbial and corrosion control program.

Monitoring

- Monitoring parameters will vary depending on water quality and system requirements. Consult your ENVIRONEX representative for advice on monitoring parameters for your system.

Handling and Storage.

- Read the label and Material Safety Data Sheet for complete handling information before using this product.
- CW6265 may be stored up to one year.

Quality

- ENVIRONEX International is licensed as a Quality Endorsed Manufacturing Company under ISO9001.
