CW6274 Calcium Carbonate Scale Control

Product Description

ENVIRONEX CW6274 Cooling Water Antiscalant is based on revolutionary TERPOLYMER science specifically formulated for systems where Calcium Carbonate scale is the main problem.

Product Benefits.

- Specific calcium carbonate Antiscalant and dispersant
- Also Inhibits the precipitation of calcium phosphate and calcium phosphonate
- Stabilizes the reaction products of iron and calcium.
- Superior scale inhibition
- Excellent calcium tolerance
- Thermally stable,
- All organic.
- pH Stable
- Contains no heavy metals
- Cost effective

Application

CW6274 can be used in all open recirculation cooling water systems.

Features

- CW6274 is compatible with Oxidizing and Non-oxidizing Biocides
- Ready to use liquid

Dosage requirements

- Dosage will vary from 2-100 ppm CW6274 depending on feed water quality.
- Combine with a good microbial and corrosion control program.

Monitoring

- Monitoring parameters will vary depending on water quality and system requirements. Consult your ENVIRONEX representative for advice on monitoring parameters for your system.

Handling and Storage.

- Read the label and Material Safety Data Sheet for complete handling information before using this product.
- CW6274 may be stored up to one year.

Quality

- ENVIRONEX International is licensed as a Quality Endorsed Manufacturing Company under ISO9001.
