CHLORHEX SANITISER

MATERIAL & FUNCTION

CHLORHEX SANITISER is effective against both gram positive and gram negative bacteria for use in the food and dairy industry. CHLORHEX SANITISER will sanitise surfaces and can be used in both CIP and COP cleaning. It is required to be rinsed after sanitation has taken place.

APPLICATION

Dilute 1 part CHLORHEX SANITISER to 9 parts water

CHLORHEX SANITISER solution should only be applied to pre-cleaned surfaces. Ensure that the area to be sanitized is clean and all organic matter/debris is removed. Residues should be removed from the product contacting surfaces of equipment by thorough rinsing with clean water before the commencement of operations, but need not be removed from the outside equipment or from walls, floors or ceiling unless their presence is considered hazardous by the establishment officer-in-charge of inspection.

PACKAGING

200 & 1000L containers.

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
