FLOOR CLEAN

HEAVY DUTY WORKSHOP FLOOR CLEANER

MATERIAL & FUNCTION

FLOOR CLEAN has been designed for the routine cleaning of concrete floors where grease and oil deposits occur, particularly garage and workshop floors. **FLOOR CLEAN** is easy to use because it eliminates labour intensive scraping or scrubbing. It is safe being non flammable, non poisonous and contains no free alkali. The pine oil content acts as a very effective disinfecting and deodorizing agent.

APPEARANCE

FLOOR CLEAN is a granular yellowish material, soluble in cold and hot water and has a pronounced pine oil odour.

APPLICATION

Routine Maintenance - **FLOOR CLEAN** can be added to water (preferably hot) at 25-35gms per litre and mopped over previously wetted down floor. The solution is allowed to soak in for about five to ten minutes, then lightly brushed, followed by a thorough rinsing with the mop or hose, preferably the latter.

Heavy Build-up - Wet area down with water and sprinkle **FLOOR CLEAN** liberally over the floor. Brush the surface with a good stiff broom and allow to soak for 30 minutes or more if possible. Rinse thoroughly with a hose.

PACKAGING

5kg, 22kg & 200kg containers.

IMPORTANT NOTICE TO CUSTOMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user.

ALWAYS TEST FIRST.
