IDEAL

ENZYME BOOSTED LIQUID LAUNDRY DETERGENT

MATERIAL & FUNCTION

IDEAL is a specialty heavy duty laundry liquid using a powerful combination of detergent, sequesterants, brightener and enzymes to remove all types of staining.

Specialty enzymes contained in **IDEAL** assist in the removal of problem protein staining and help prevent 'pilling' in cotton clothing.

IDEAL is suitable for use in food and meat export establishments.

APPLICATION

IDEAL is a detergent designed for use in the main wash cycle for clothes washing in On Premises Laundries. **IDEAL** is normally added at a rate of 1 to 3ml per kg of laundry depending on degree of soiling.

SPECIAL NOTE

*Because of the nature of enzymes, it is recommended that **IDEAL** is not used on silk or wool clothing as it may cause accelerated aging of the material.*

PACKAGING

15 Litre, 110 Litre, 120 Litre & 200 Litre containers.

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
