## JOURNEY

### HARD SURFACE CLEANER

#### MATERIAL & FUNCTION

**JOURNEY** is a "one shot" high foaming alkaline detergent blend built with corrosion inhibitors, foam stabilizers and anti-redeposition agents for the cleaning of food processing equipment that fits perfectly into a 'preventative maintenance' culture of operations.

Due to **JOURNEY'S** chemically engineered formulation, it has a CHELATING feature that allows it to deal with hard water scale deposits, rust stains and fat residue build up.

**JOURNEY** will brighten and lighten Stainless Steel equipment over a period of time and halt any further chemical attack on plant & equipment, ensuring fewer repairs, maintenance and down time issues

**JOURNEY** is suitable for use in food and meat export establishments..

**JOURNEY** has been formulated to:

- Efficiently remove fatty production residues
- Protect metals, dissolve rust deposits, prevent scale re-forming and is soft metal safe.

will not damage rubber & plastic machinery components

#### APPLICATION

**JOURNEY** is formulated for use through foaming equipment or high pressure wash-down units. Use rate varies from 20-250 mL per litre of water, dependent upon the degree of soilage and style of equipment. Best results are obtained at elevated temperatures with a contact time of 10 to 20 minutes. For use in the meat and food processing industries.

**JOURNEY** is a clear liquid of moderate viscosity and alkaline Ph.

#### PACKAGING

5, 15, 110, 200 Litre plastic drums

U.N No. 1719 Caustic Alkali Liquid, N.O.S.

CLASS 8 Corrosive

HAZCHEM 2R

### **IMPORTANT NOTICE TO CUSTOMER**
