## LEMON SANITIZER

### MATERIAL & FUNCTION

**LEMON SANITIZER** is an economy quaternary sanitizer with detergent/cleaning properties. It is designed to clean all types of surfaces and then leave surface fully sanitized.

### APPEARANCE

**LEMON SANITIZER** is a thin brown liquid with a lemon fragrance which will leave the surface smelling fresh and clean.

### APPLICATION

**LEMON SANITIZER** finds application both commercially and domestically for the sanitation and cleaning of bathroom, washroom, toilet and ablution areas and is suitable for use in kitchen areas. In commercial food processing operations, sanitizing should be achieved using **QUAT CLEAN**, **PROXITANE** or **SODIUM HYPOCHLORITE**.

Dilute **LEMON SANITIZER** at 1:5 with water. To ensure a complete sanitation, a contact time of at least 5 minutes is required. In dirty conditions use **LEMON SANITIZER** diluted 1 part **LEMON SANITIZER** to 1 part water and ensure contact time of 5 minutes.

For cleaning without sanitation, dilute **LEMON SANITIZER** 1:40 with warm water. For ablution areas, toilet bowls and urinals use **LEMON SANITISER** at full strength to get a lingering fresh smell of lemon.

### FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre

### PACKAGING

15 Litre & 200 Litre containers.
