NAPPI AID

SANITIZER - WHITENER

MATERIAL & FUNCTION

NAPPI AID contains a chlorine releasing compound based with biodegradable surfactants, to clean, sanitize and deodorize nappies and any other white cotton material.

NAPPI AID kills the bacteria associated with rash, diarrhoea and sickness.

APPLICATION

Add 2 tablespoons of **NAPPI AID** to 7 litres of warm water, this should be sufficient for 6 nappies. Allow to soak for up to 3 hours, then rinse thoroughly under clean water and wash by machine in the normal manner.

PACKAGING

5 kg & 20 kg containers.

IMPORTANT NOTICE TO CUSTOMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product.

*Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST***
