## PHOSSIE - DET

### ACIDIC DETERGENT CLEANER

#### MATERIAL & FUNCTION

**PHOSSIE DET** is a highly concentrated acidic detergent sanitizer used for the foam cleaning of external surfaces in food preparation areas. **PHOSSIE DET** may be used to complement existing sanitizing routines which often employ alkaline conditions. The variation of acid and alkaline sanitizing conditions reduces the build-up of organisms tolerant to particular pH conditions.

**PHOSSIE DET** is used for the removal of hard water calcium and lime deposits, soap scum, mineral stains and rust stains. Surfaces such as bricks, ceramic tiles and masonry surfaces would be suitable for cleaning and sanitizing with **PHOSSIE DET**. The added detergency aids penetration of the acids into the surface to help lift other stains

**PHOSSIE DET** contains biodegradable surfactants. Always test **PHOSSIE-DET** in a small, inconspicuous area, to ensure no detrimental effect on the surface to be cleaned.

#### DIRECTIONS

**PHOSSIE DET** should be diluted 1:30 with cold water, depending on the nature of the surface. Pre-wet the surface before applying **PHOSSIE DET** to minimize the possibility of etching or discolouring the surface. Once prepared, apply the diluted **PHOSSIE DET** and agitate the stained area with a scrubbing brush or pad to remove any stain. Rinse the cleaned area twice with potable water to remove traces of **PHOSSIE DET**.

#### CAUTION

*Caution should be taken when using **PHOSSIE-DET** due to its acidic characteristics. Rubber gloves should be worn as protection when cleaning with **PHOSSIE-DET**. Foaming produces acidic aerosols. Recommended for well ventilated areas is a half-face respirator (with ABEK combined filter) and goggles. See msds for further information.*

#### PACKAGING

15 Litre container.

#### IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
