PINE SANITIZER

MATERIAL & FUNCTION

PINE SANITIZER is an economy quaternary sanitizer with reasonable detergent/cleaning properties. It is designed to clean all types of surfaces and then leave surface fully sanitized.

APPEARANCE

PINE SANITIZER is a thin brown liquid with a pine fragrance, which will leave the surface smelling fresh and clean.

APPLICATION

PINE SANITIZER finds application both commercially and domestically for the sanitation and cleaning of bathroom, washroom, toilet & ablution areas and is suitable for use in kitchen areas. In commercial food processing operations, sanitizing should be achieved using **QUAT CLEAN**, **PROXITANE** or **SODIUM HYPOCHLORITE**.

Dilute **PINE SANITIZER** at 1:5 with water. To ensure a complete sanitation, a contact time of at least 5 minutes is required. In dirty conditions use **PINE SANITIZER** diluted 1 part **PINE SANITIZER** to 1 part water and ensure contact time of 5 minutes.

For cleaning without sanitation, dilute **PINE SANITIZER** 1:40 with warm water. For ablution areas, toilet bowls and urinals, use **PINE SANITIZER** at full strength to get a lingering fresh smell of pine.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre. If swallowed give Ipecac syrup to induce vomiting. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

PACKAGING

20 Litre & 200 Litre containers.

IMPORTANT NOTICE TO CUSTOMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any

risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user.

ALWAYS TEST FIRST.
