PLEASANT CLEAN

CONCENTRATED DISINFECTANT CLEANSER

MATERIAL & FUNCTION

PLEASANT CLEAN "Kills" - contains a powerful quaternary ammonium germicide with high "kill" power to a wide range of disease causing bacteria.

PLEASANT CLEAN "Cleans" - a unique blend of detergent and solvents will leave the surface free of soil build ups.

PLEASANT CLEAN "Deodorizes" - the good clean perfume leaves the atmosphere and surface with that "just washed" smell.

APPLICATION

PLEASANT CLEAN should be used in areas where the surfaces are subject to soiling and bacterial contamination such as floors, walls, toilets, showers, change rooms and restaurants. It is particularly effective in hospital and surgery applications.

PLEASANT CLEAN is a General Cleaner - Type C.

PLEASANT CLEAN is diluted 1 part to 100 parts water (preferably Hot) for all general germicidal and cleaning operations. Where heavier soiling or greater bacterial contamination has occurred lower dilutions should be used. For maximum kill/clean use as received.

PACKAGING

5 Litre, 15 Litre, 120 Litre & 200 Litre containers.

IMPORTANT NOTICE TO CUSTOMER

Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user.

ALWAYS TEST FIRST.
