UNION

SOFTENER / SOUR FOR LAUNDRIES

MATERIAL & FUNCTION

UNION is a powerful softener and sour for use in On Premises Laundries for neutralizing excess alkali and improving softness and feel of linen.

By combining the softening and sour operations into one step, **UNION** saves you time in your wash cycle allowing time water and energy savings and increasing possible throughput.

UNION also reduces your required storage of chemical stock by combining the softener and sour.

APPEARANCE & FRAGRANCE

Opaque pale pink liquid with pleasant floral fragrance.

APPLICATION

UNION should be closed via automatic feed at a typical rate of 5 ml per kg of dry weight linen. However, this rate should be adjusted to ensure that the final pH of this cycle is between 5.0 - 7.0 pH units.

PACKAGING

15 L, 110 L, 120 L & 200 L containers.

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective. They cannot assume any risk or liability in excess of the purchase price of the product itself, which does not include labour or any consequential damages resulting from the use of this product. Determining the suitability of this product for any intended use shall be solely the responsibility of the user. **ALWAYS TEST FIRST.***
