SATURN

FOAMING DETERGENT

MATERIAL & FUNCTION

SATURN is a specialized foaming detergent for use in the food industry for general cleaning where a pH neutral environment is required. SATURN does not use harsh caustic materials, these have been replaced by specialized low toxicity solvents to emulsify grease, oil and fats.

SATURN is ideal for environmental foam cleaning of all types of hard surfaces and can also be used in manual cleaning operations if required.

APPLICATION

SATURN should be undiluted in foaming machines and the feed concentration set at between 1:20 and 1:50 depending on soiling.

SATURN should be applied and left for 30 seconds to 1 minute before rinsing off with potable water. Some soiling may require scrubbing to assist in removal. Manual cleaning requires similar rates to foam cleaning but warm to hot water is recommended for maximum effectiveness.

SPECIAL NOTE

SATURN is classified as an irritant to skin and eyes Good occupational safety practices should be adhered to such as the use of gloves and safety glasses when applying.

PACKAGING

15 Litre & 200 Litre drums.

IMPORTANT NOTICE TO CUSTOMER

*Since the use of this product is beyond the control of either seller or manufacturer, their only obligation shall be to replace any quantity of product which is proven defective.
