SUPA SOKE GRANULES **SOIL WETTING AGENT** **Commercial Grade**

FOR TURF, LANDSCAPE AND NURSERY USE.

SUPA SOKE GRANULES has the effect of reducing water surface tension enhancing soil water absorption. Drainage of excess water is also facilitated by its action. The granular formula makes it easy and convenient to use. It is ideal for use as an additive to both peat and pine bark based Nursery Potting Media. SUPA SOKE GRANULES can be incorporated or top dressed to aid rewetting of dried mixes.

Use in Turf and Landscape applications to prevent dry patch and to free drainage of wet areas.

POTTING SOILS

Improves re-wettability of dry soils.

Improves soil drainage inhibiting surface moss and algae growth.

Can increase water-holding capacity without decreasing air filled porosity.

Improves performance of fertilizers.

Improves Cations Exchange Capacity of soil-less potting mixes.

Not phytotoxic at recommended rates.

RATES OF APPLICATION

- **General nursery and green house potting mixes** – incorporate at 600g per cubic metre of soil.
- **Propagation and plug mixes** – incorporate at 300g per cubic metre of soil.

TURF AND LANDSCAPE

- Eliminates dry spot and improves drainage of excessive water
- **SAFE** – no need to irrigate immediately after application. Irrigation advisable within 24 hours of application.
- Convenient to apply through spreader equipment.
- Encourages stronger healthier turf by ensuring quick water movement through soil.
- Encourages deeper root systems.
- Improves performance of fertilizers and pesticides.

RATES OF APPLICATION

- **Golf and bowling greens** – Apply 1kg per 100 square metres early in the season. Reapply every month thereafter for the remainder of the season.
- **Golf tees** – Apply 1kg per 100 square metres monthly for 2 months during spring. Following the first two treatments, reapply monthly at half rate for remainder of the season.

- **Fairways and sports fields** – Apply at 1kg per 100 square metres in mid to late spring and reapply at half rate at 2-3 monthly intervals.
(Note: When applying to highly hydrophobic sands, a rate of 1kg per 30 square metres is recommended)

CAUTION

Keep out of reach of children. Can cause eye and/or skin irritation. May be harmful if swallowed. Do not get in eyes. Avoid prolonged and repeated contact with skin.

FIRST AID

If swallowed induce vomiting immediately by giving two glasses of water and sticking finger down throat. Call a physician. In case of skin contact wash thoroughly with soap and water after handling. If splashed in eyes, flush with water for 15 minutes. Get medical attention immediately.

NOTE: For optimum results use SUPA SOKE GRANULES before the heat of the day. If used on hot days some burning of foliage may occur. To prevent burning thoroughly wash SUPA SOKE GRANULES into the ground.

PACKAGING

25 kg & 1 tonne containers
