S21 MPC

Multi Purpose Cleaner

S21 MPC is a remarkable hard surface cleaning concentrate which has an outstanding grease cutting action. **S21 MPC** can be used for cleaning bench tops, splash backs, dirty floors, tyre and rubber marks.

- Always wear Personal Protective Equipment (PPE) – A minimum requirement of Safety Glasses, Gloves & Boots. Damage to clothing may occur.
- **Floors:** Dilute 100ml per Litre in warm water and scrub as necessary with an **ENVIRONEX EAGER BEAVER** then rinse with warm fresh water.
- **Engines, Boat Bilges, Driveways etc.:** Use neat or dilute 1:1 in hot water depending on degree of grease build-up.
- **Work Benches, Stoves etc.:** Dilute 50-100ml per Litre of water depending on the type of soil to be removed (more grease, lower dilution – less water).
- **Greasy Clothes:** Add 150-300ml per 7kg of wash, or a normal household wash load. When adding to a washing machine **S21 MPC** should be diluted before addition to ensure no adverse effects from adding neat **S21 MPC** to clothes.
- **Aluminium Filters for Cooking Fume Hoods:** Dilute 100ml per Litre of hot water and leave filter to soak for several hours. Agitation will improve grease removal.
- **Tyre and Rubber Marks:** Apply neat, allow to dwell on the stain for about 60 seconds, scrub with an **ENVIRONEX EAGER BEAVER** and rinse off with copious amounts of water. If the mark remains, repeat the process.
- Always test first.
