GREEN DEVIL

GREEN DEVIL is a speciality acidic detergent with a wide variety of applications including:

- Removal of iron ore and rust stain deposits from vehicles, plant and equipment and external elements.
- Neutralization & removal of bore water stains and scale build-up (Do not use on glass surfaces).
- Efflorescence.
- Oxides.

Follow The 5 easy Steps

Always wear Personal Protective Equipment (PPE) – A minimum requirement of Safety Glasses, Gloves & Boots. Damage to clothing may occur.

1. Lightly wet the area with fresh water.
2. Mix **GREEN DEVIL** at 40-65 ml per 1L of water in a plastic watering can and apply to 3-5 m² at a time. As the masonry mildly fizzes, agitate gently with an **ENVIRONEX EAGER BEAVER**. Let the area lightly fizz for 2-3 minutes only. (Do not use a higher concentration or longer active time as it will cause damage).
3. Rinse the area with fresh water.
4. Neutralise the area with a capful of **REFRESH** pH neutral detergent in 5-10L of water.
5. Rinse with fresh water.
6. Always test first.
